

## Country music by the stage

The aim is to provide developmentally disabled individuals and their companions with opportunities for cultural and social interaction. The concerts create a space where residents of Sødisebakke can feel seen and included, enhancing their quality of life and social cohesion.

These events offer the chance to sing along, dance, and move. Various themed concerts are held at Sødisebakke, designed to awaken memories, foster joy in movement, promote community inclusion, and facilitate aesthetic experiences.
